

NAS Tyre Services Ltd

Tyres and more.

About us

NAS Tyre Services Limited or NTS as it is commonly referred, had humble beginnings in 1994 when it set up a small Tyre Retreading unit in Dar es Salaam. Over the years it has grown to become the largest Retread company in Tanzania with three separate retread facilities operating in Dar es salaam, Arusha and Mwanza.

NTS started trading in new tyres in 1996. Since then our range has expanded to cater to our clients needs from the smallest passenger car, to the largest earth moving equipment making us the complete tyre and battery solutions company. Today NTS is the largest importer and distributor of new tyres and batteries in Tanzania.

Our investment in our own warehousing in Dar es Salaam, Arusha and Mwanza ensures extensive market penetration & coverage across length and breadth of Tanzania. We believe in building long-lasting relationships with our Customers, Staff and Suppliers.

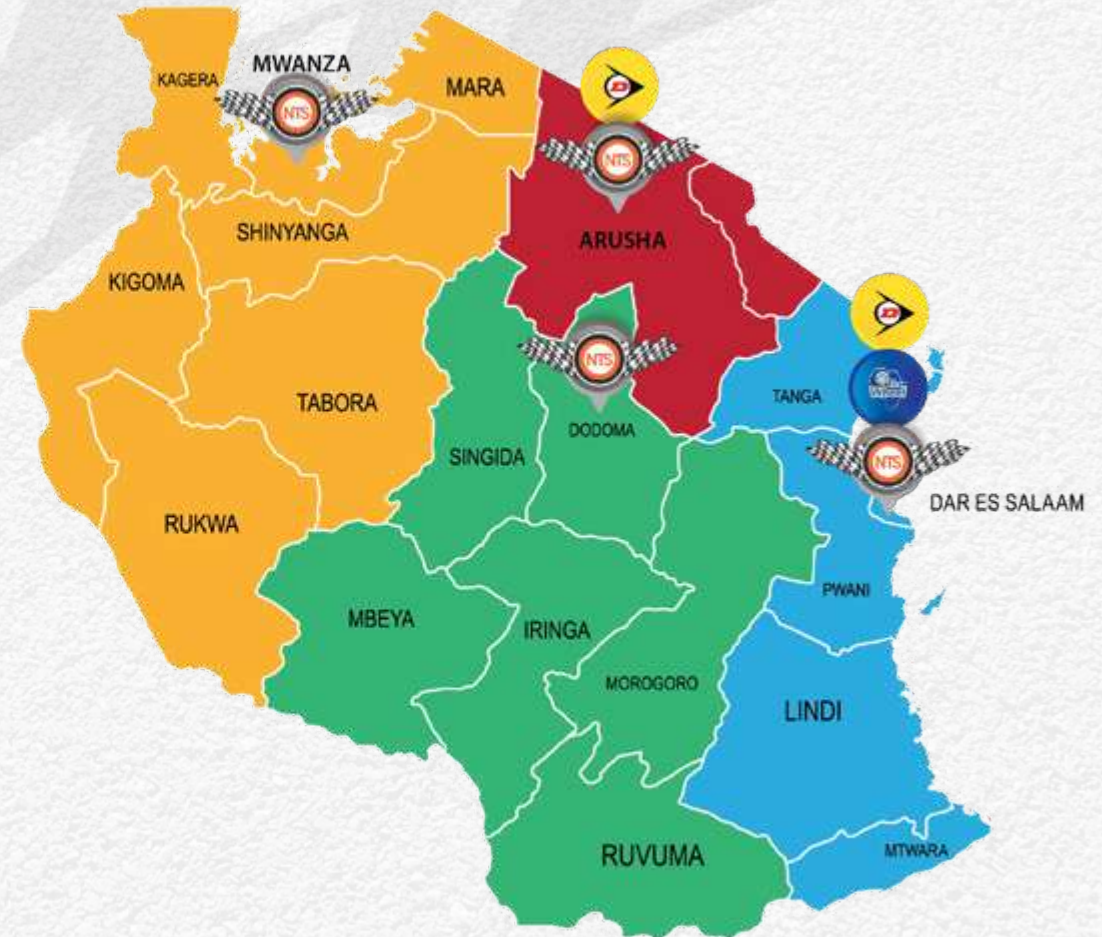

Our team of professionals with a collective experience of over 400 years
