From the MD's Desk

Dear Partners,

As we celebrate 30 years of Nas Tyre Services Limited, I want to personally thank you for being part of this incredible journey. From our humble beginnings as a tyre retreading unit to becoming one of Tanzania's leading automotive service providers, your trust and support have made all the difference.

Together with our team and valued partners, we've built something we're proud of—offering top-quality brands, reliable services, and solutions tailored to the unique needs of our customers.

Our legacy underscores our commitment to raising the standard of service and innovation in Tanzania's automotive industry and we're excited about what's ahead.

Thank you for being an integral part of our journey. Here's to many more years of shared success.

Warmly,
Amin B. Lakhani
Managing Director, Nas Tyre Services Limited

What began as a tyre-focused business has grown into a trusted mobility solutions provider across industries including transport, logistics, agriculture, construction, mining, energy, retail and more.

Today, we hold a lion's share of Tanzania's mining tyre market

and maintain strong partnerships with corporate clients, fleet owners, transporters, and dealers nationwide.

We cover the full spectrum of mobility needs — from 13" passenger car tyres to 57" ultra-large mining tyres, batteries, lubricants, and quick-fitment services.

4

With a strong presence across key sectors and a reputation for reliability, NTS combines advanced technology, an expert team, and world-renowned brands made available locally at affordable prices to deliver solutions built for Tanzania's roads and industries.

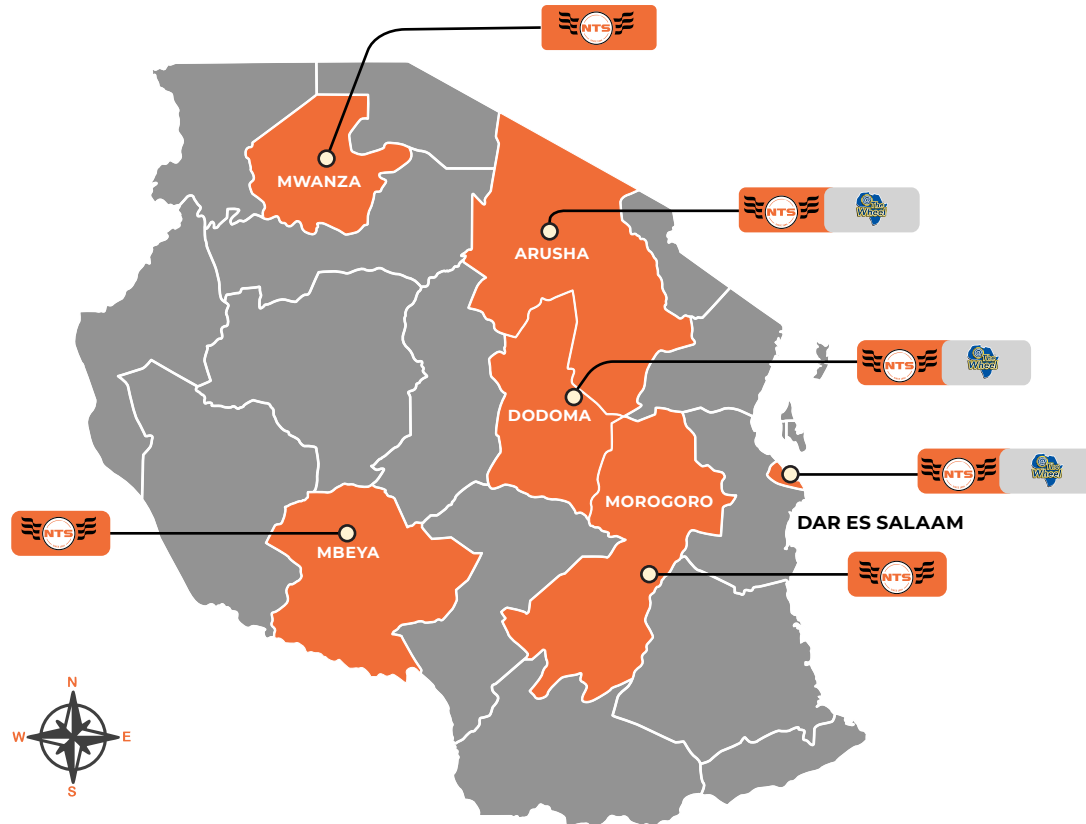

Guided by a people-first philosophy and backed by over 400 years of combined expertise, our skilled team delivers reliable, high-quality solutions that keep Tanzania moving.

Tyre Retreading

Using advanced technology and strict quality checks, we give tyres a second life.

Every retread meets global standards for safety, durability, and performance.

Spot and scrap analysis reduces premature failures, saves costs, and supports sustainability.

Mining Services

Tailored for the demanding mining sector, our services combine expert tyre supply and forecasting to ensure timely availability.

We provide advanced fitment tools for precise installation, a wide range of tyres (24"–57") for diverse equipment needs, and TKPH studies to optimize performance and extend durability.

Tailored training programs enhance driver safety and operational efficiency, helping mining operations run smoothly and cost-effectively.

Mobile, Truck Wheel Alignment Services

Bringing precision and convenience directly to your location, our mobile services use world-leading JOSAM technology and advanced digital tools to optimize truck, trailer, and bus alignments, enhancing safety, performance, tyre life, and fuel efficiency.

Auto-generated reports and reminders make fleet management completely stress-free while minimizing downtime and operational costs.

Fleet Services

Tailored for large vehicle fleets, our tyre maintenance solutions keep your operations running smoothly and cost-effectively.

Regular inspections, tyre rotation, and tread monitoring extend tyre life, while expert guidance helps enhance performance and reduce overall fleet costs.

Tyres and much more

Quick Fitment Services

@TheWheel centers combine state-of-the-art facilities with a dedicated professional team to keep your vehicle road-ready.

Services include tyre and battery-related services, oil and filter changes, AC regassing, and essential parts and accessories.

Designed for efficiency and safety, @TheWheel delivers a seamless and reliable customer experience.

NTS partners with world-leading brands to bring cutting-edge technology, premium products, and reliable solutions across the mobility sector in Tanzania.

Beyond tyres and vehicle solutions, we also offer industrial batteries to support homes, businesses, and off-grid energy needs.

Committed to affordability, we make premium brands accessible at affordable prices while ensuring value and reliability at every step.
